Qantas reported an Underlying Profit Before Tax of $1,401 million in 2016/17 — the second highest performance in our 97-year history.

This result shows the Qantas Group's margin advantage over local and global competitors, which has been underpinned by completion of its three year Transformation Program.

In the domestic market, Qantas and Jetstar combined reached a record $865 million Underlying EBIT, making them again the two most profitable Australian airlines.

Qantas International, which has faced high levels of capacity growth in the broader market, saw an improvement of conditions in the second half; it posted an Underlying EBIT of $327 million.

Continued strength in its core markets helped the Jetstar Group deliver the second highest profit in its 13 years of operation at $417 million of Underlying EBIT.

Qantas Loyalty booked a record $369 million Underlying EBIT on a 4 per cent increase in revenue as it continued to diversify its earnings.

A drop in the Group’s Statutory Profit Before Tax of $243 million reflects that our 2015/16 result included the gain on sale from the Sydney Domestic Terminal.

In total, this performance means Qantas is able to reward shareholders, recognise the hard work of its people and invest for customers.
