EXECUTING ON STRATEGY TO DELIVER SUSTAINABLE RETURNS TO SHAREHOLDERS

\(^1\) Net financing cash flows excluding payments for shares bought back. \(^2\) Comparable Unit Cost is defined as Net Underlying Unit Cost (Underlying PBT less passenger revenue and fuel per ASK) adjusted for the impact of industrial action (FY12), Boeing settlement, change in accounting estimate for passenger revenue and carbon tax (FY13), and movements in average sector length. Refer to Supplementary Slide 10 for further detail. \(^3\) In FY13 and FY14. Excludes proceeds/payments relating to asset disposals/acquisitions, includes payments for investments in associates.
Challenging Market Conditions

- Tough operating environment
  - Excess domestic market capacity
  - High AUD fuel costs; carbon tax
  - Competitor response to EK partnership
  - Mixed economic conditions
- Continued focus on
  - Cost reduction and productivity
  - Capital expenditure discipline
  - Network and fleet optimisation
  - Customer experience and employee engagement

FY13 Financial Results

1. Underlying Profit Before Tax (PBT) is a non-statutory measure and is the primary reporting measure used by the Qantas Group’s chief operating decision-making bodies, being the Chief Executive Officer, Group Management Committee and the Board of Directors, for the purpose of assessing the performance of the Group. All line items in the FY13 Results Presentation are reported on an Underlying basis. Refer to slide 11 for a reconciliation of Underlying to Statutory PBT. 2. Qantas Loyalty record Underlying EBIT result compared to prior periods normalised for changes in accounting estimates of the fair value of points and breakage expectations effective 1 January 2009. 3. Variance to last year. Favourable variances are reported in green. 4. Comparable Unit Cost is defined as Net Underlying Unit Cost (Underlying PBT less passenger revenue and fuel per ASK) adjusted for the impact of industrial action (FY12), Boeing settlement, change in accounting estimate for passenger revenue and carbon tax (FY13), and movements in average sector length. Refer to Supplementary Slide 10 for further detail. 5. Net free cash flow is operating cash flows less investing cash flows. Free cash flow is a measure of the amount of operating cash flows that are available (i.e. after investing activities) to fund reductions in net debt or payments to shareholders. 6. Includes cash and cash equivalents and $630m undrawn revolver facility at 30 June 2013.

1. Underlying Profit Before Tax (PBT) is a non-statutory measure and is the primary reporting measure used by the Qantas Group's chief operating decision-making bodies, being the Chief Executive Officer, Group Management Committee and the Board of Directors, for the purpose of assessing the performance of the Group. Underlying PBT is derived by adjusting Statutory PBT for the impact of AASB 139: Financial Instruments: Recognition and Measurement (AASB 139) which relate to other reporting periods and identifying certain other items which are not included in Underlying PBT (Refer slide 12).

2. Net passenger revenue has been adjusted in FY13 to include associated ancillary passenger revenue, passenger service fees, charter revenue and lease revenue on codeshare previously reported in Other revenue. FY12 Net passenger revenue and Other revenue have been restated accordingly. These items remain excluded from the calculation of yield.

3. Net freight revenue has been adjusted in FY13 to include freight lease revenue previously reported in Other revenue. FY12 Net freight revenue and Other revenue have been restated accordingly.

1. Items which are identified by Management and reported to the Qantas Group's chief operating decision-making bodies as not representing the underlying performance of the business are not included in Underlying PBT. The determination of these items is made after consideration of their nature and materiality and is applied consistently from period to period. Items not included in Underlying PBT primarily result from revenues and expenses relating to business activities in other reporting periods, major transformational/restructuring initiatives, transactions involving investments and impairments of assets outside the ordinary course of business.

Outlook

• The Group’s FY14 operating environment remains challenging and volatile
• Current Group operating expectations for 1H14:
  – Group capacity to increase by 1-2% in 1H14 compared to 1H13
  – Domestic capacity to increase by 1.5-2.5% in 1H14 compared to 1H13, whilst maintaining flexibility
  – Underlying fuel cost of ~$2.34b at current market rates, ~$160m higher than 1H13
• No group profit guidance provided at this time due to the high degree of volatility and uncertainty in the competitive environment, global economic conditions, fuel prices and FX rates.

1. As at 28 August 2013, excludes carbon tax.
Summary

• Delivering strategic objectives in challenging market conditions
  – Strengthening Group domestic position
  – Qantas International turnaround on track
  – Broadening Qantas Loyalty
  – Building Jetstar in Asia
  – Enhancing customer experience and engaging our people
  – Strengthening financial position

POSITIONING THE GROUP FOR A STRONG FUTURE TO DELIVER SUSTAINABLE RETURNS TO SHAREHOLDERS
